Ideation and Storyboarding  
Level design  
Game analysis  
Procedural Content generation

## Tools

Unity  
Blender  
Adobe Illustrator, Photoshop  
p5, Processing, Arduino  
HTML, CSS

## About me

I love writing stories to design rich Narrative experience. Connecting Game mechanics to Narrative is my area of expertise. I strongly believe that gameplay and storytelling go hand in hand and I strive to give meaning to player actions. I am constantly on the lookout for new means for player interacting and immersive experiences.

## Education

**M. Des** - Digital game Design  
National Institute of design

**B.E** - Mechatronics Engineering  
Anna University Chennai

## Experience

Graphic designer  
Xtracut Digital Marketing

## Recognition

Gave a Talk at **PCD 2020**  
**"Processing Interactions"**  
My explorations on creating new player interactions with touchscreens and Motion capture.
